NO. J15-04178 / ID. 1584652

Course Period in Japan: From November 3, 2015 to December 5, 2015

This information pertains to one of the JICA Knowledge Co-Creation Program (Group & Region Focus) of the Japan International Cooperation Agency (JICA), which shall be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between both Governments.

'JICA Knowledge Co-Creation (KCC) Program' as a New Start

In the Development Cooperation Charter which was released from the Japanese Cabinet on February 2015, it is clearly pointed out that *"In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together."* We believe that this 'Knowledge Co-Creation Program' will serve as a center of mutual learning process.

I. Concept

Background

Today, foreign direct investment (FDI) is considered as an important accelerator of economic growth in developing countries. FDI is expected to bring benefits to developing countries, such as job opportunities, new technology and activation of local economy. Government and public organizations, such as Investment Promotion Agency(IPA) play a crucial role in promoting quality FDI by setting clear strategy and preparing appropriate incentives and business environment to invite FDI.

From investor's point of view, investment involves big risk and opportunity. Investment decision requires careful assessment of information. However, it is sometimes difficult for foreign investors to acquire correct and latest information about developing countries.

With the increasing international competition, effective promotion of their countries to the potential investors is the key to attract FDI to developing countries. It is essential for developing countries to let the potential investors know the strength of their country, such as business environment, human resources and market potential.

Therefore, it has become more and more important for IPA to enhance the capacity to understand the needs of investors, prepare the necessary data/information and promote their country to promising investors.

For what?

This program intends to strengthen the capacity of officials of IPA (or equivalent organization) as a FDI promotion expert. This training especially focuses on acquiring the practical skill and knowledge to effectively promote their country to potential investors. FDI promotion experts are expected to have professional knowledge on investment procedure, regulations and information about private sectors of their countries.

For whom?

This program is offered to governmental organizations in charge of Inward FDI promotion.

How?

Participants are expected to learn by lectures, site visits and group discussions. This program focuses on gaining practical knowledge with market-oriented approach by case-studies and hands-on experience.

During the program, participants will visit several Japanese investment promotion agencies and Japanese companies. Participants will learn about successful measures of country promotion by examining other countries' cases.

jicaksic-unit@jica.go.jp)

2. Implementing Partner:

(1) **Name** : Pacific Resource Exchange Center

(2) **Contact** : International Department (prexmail@prex-hrd.or.jp)

(3) **URL** : http://www.prex-hrd.or.jp/index_e.html

(4) **Information:** Pacific Resource Exchange Center (visit PREX at: http://www.prex-hrd.or.jp/index_e.html) was established in April 1990 in response to a proposal adopted at the general assembly of the Pacific Economic Cooperation Council (visit PECC at: <http://www.pecc.org/>). Since its inception, PREX has been contributing to promote international exchanges through human resource development projects and related activities in developing countries.

3. Travel to Japan:

(1) **Air Ticket:** The cost of a round-trip ticket between an international airport designated by JICA and Japan will be borne by JICA.

(2) **Travel Insurance:** Coverage is from time of arrival up to departure in Japan. Thus traveling time outside Japan will not be covered.

4. Accommodation in Japan:

JICA will arrange the following accommodations for the participants in Japan:

JICA Kansai

Address: 1-5-2, Wakinohama-kaigandori, Chuo-ku, Kobe, Hyogo 651-0073,
Japan

TEL: 81-78-261-0397 FAX: 81-78-261-0465

(where "81" is the country code for Japan, and "3" is the local area code)

If there is no vacancy at JICA Kansai, JICA will arrange alternative accommodations for the participants. Please refer to facility guide of JICA Kansai at its URL, <http://www.jica.go.jp/english/contact/domestic/index.html>.

5. Expenses:

The following expenses will be provided for the participants by JICA:

(1) Allowances for accommodation, meals, living expenses, outfit, and shipping,

- (2) Expenses for study tours (basically in the form of train tickets),
- (3) Free medical care for participants who become ill after arriving in Japan (costs related to pre-existing illness, pregnancy, or dental treatment are not included),
and
- (4) Expenses for program implementation, including materials.
For more details, please see “III. ALLOWANCES” of the brochure for participants titled “KENSU-IN GUIDE BOOK,” which will be given before departure for Japan.

6. Pre-departure Orientation:

A pre-departure orientation will be held at the respective country’s JICA office (or Embassy of Japan), to provide participants with details on travel to Japan, conditions of the participation in the Program, and other matters.

V. Other Information

1. Participants who have successfully completed the program will be awarded a certificate by JICA.
2. For the promotion of mutual friendship, JICA Kansai encourages international exchange between JICA participants and local communities, including school and university students as a part of development education program. JICA participants are expected to contribute by attending such activities and will possibly be asked to make presentations on the society, economy and culture of their home country.
3. Participants are recommended to bring laptop computers for your convenience, if possible. During the program, participants are required to work on the computers, including preparation of weekly report, Pre-study Report and Action plan, etc by Microsoft Excel, Word and Power point. Most of the accommodations have internet access. Also, there is a computer room in JICA Kansai where fourteen desk-top computers have the internet access.
4. Plugs for electrical devices (Electrical outlet)
If you bring your electrical devices such as PC, it is recommended to bring Type A plug. You can borrow multinational plug in JICA though limited quantity. Also, the voltage in Japan is 100 Volt, which is different from North America (120V), Central Europe (220V) and most other regions of the world. Please check your electrical devices if you plan to bring one.
5. A bag for one week trip
You will make one-week trip to Tokyo and one week trip to Nagoya during your stay in Japan. Please bring a bag appropriate for the two weeks' stay. Otherwise you have to bring a suitcase for the stay which might be difficult to get on the train. No porter service is available in Japan.
6. Comfortable shoes
Please bring comfortable footwear to walk. You often have to take off your shoes before you enter Japanese offices. We will often use public transportation and walk to the destination because public transportation has developed well in Japan.
7. Allowances, such as for accommodation, living, clothing, and shipping, will be deposited to your temporary bank account in Japan after 2 to 5 days after your arrival to Japan. It is highly advised to bring some cash / traveler's check in order to spend necessary money for the first 2 to 5 days after your arrival.
8. It is very important that your currency must be exchanged to Japanese Yen at any transit airport or Kansai International Airport (KIX) in Osaka, Japan soon after your arrival. It is quite difficult to exchange money after that, due to no facility or time during the training program.

Note: Participants will have more detailed guidance during the program in Japan.

For Your Reference

JICA and Capacity Development

The key concept underpinning JICA operations since its establishment in 1974 has been the conviction that “capacity development” is central to the socioeconomic development of any country, regardless of the specific operational scheme one may be undertaking, i.e. expert assignments, development projects, development study projects, training programs, JOCV programs, etc.

Within this wide range of programs, Training Programs have long occupied an important place in JICA operations. Conducted in Japan, they provide partner countries with opportunities to acquire practical knowledge accumulated in Japanese society. Participants dispatched by partner countries might find useful knowledge and re-create their own knowledge for enhancement of their own capacity or that of the organization and society to which they belong.

About 460 pre-organized programs cover a wide range of professional fields, ranging from education, health, infrastructure, energy, trade and finance, to agriculture, rural development, gender mainstreaming, and environmental protection. A variety of programs are being customized to address the specific needs of different target organizations, such as policy-making organizations, service provision organizations, as well as research and academic institutions. Some programs are organized to target a certain group of countries with similar developmental challenges.

Japanese Development Experience

Japan was the first non-Western country to successfully modernize its society and industrialize its economy. At the core of this process, which started more than 140 years ago, was the “*adopt and adapt*” concept by which a wide range of appropriate skills and knowledge have been imported from developed countries; these skills and knowledge have been adapted and/or improved using local skills, knowledge and initiatives. They finally became internalized in Japanese society to suit its local needs and conditions.

From engineering technology to production management methods, most of the know-how that has enabled Japan to become what it is today has emanated from this “*adoption and adaptation*” process, which, of course, has been accompanied by countless failures and errors behind the success stories. We presume that such experiences, both successful and unsuccessful, will be useful to our partners who are trying to address the challenges currently faced by developing countries.

However, it is rather challenging to share with our partners this whole body of Japan’s developmental experience. This difficulty has to do, in part, with the challenge of explaining a body of “tacit knowledge,” a type of knowledge that cannot fully be expressed in words or numbers. Adding to this difficulty are the social and cultural systems of Japan that vastly differ from those of other Western industrialized countries, and hence still remain unfamiliar to many partner countries. Simply stated, coming to Japan might be one way of overcoming such a cultural gap.

JICA, therefore, would like to invite as many leaders of partner countries as possible to come and visit us, to mingle with the Japanese people, and witness the advantages as well as the disadvantages of Japanese systems, so that integration of their findings might help them reach their developmental objectives.
