

JICA Knowledge Co-Creation Program for Long Term Participants (JICA Development Studies Program)

General Information On Universal Health Coverage Program (Admission April 2024)

長期研修「ユニバーサル・ヘルス・カバレッジ（2024年4月入学）」

This handout provides an overview of the “Universal Health Coverage (hereinafter referred to as UHC) Program”, which is one of the Japan International Cooperation Agency (JICA)’s Knowledge Co-Creation Programs (Long-Term).

0. Background

What is JICA Knowledge Co-Creation Program (KCCP)

The Japanese Cabinet released the Development Cooperation Charter in February 2015, which stated, “In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together.” JICA believes that this ‘Knowledge Co-Creation Program’ will serve as a foundation of mutual learning process.

What is JICA Development Studies Program (JICA-DSP)

JICA-DSP is being carried out by JICA as part of official development assistance (ODA) by the government of Japan. JICA-DSP is offered for international scholars accepted as the participants of JICA’s Human Resource Development Project who are enrolled in a degree program at a Japanese university.

1. Overview

The Goal 3 of the Sustainable Development Goals (SDGs) aims to “ensure healthy lives and promote wellbeing for all at all ages”. Especially, achieving UHC is prioritized as Target 3.8 under the Goal 3 and is regarded as an overarching issue. This will require political commitment to assure that the the health system delivers quality health care in a timely and financially affordable manner.

Development of human resources is also necessary towards achieving Target 3.8.

Human resources development in fields related to UHC is a strategic area of cooperation between partner countries and Japan, where the knowledge/technologies accumulated in Japan’s universities can be utilized.

The UHC program is co-organized by universities in Japan and JICA for the participants from partner countries. This program offers opportunities to study the respective academic fields in master’s degree courses at Japanese graduate schools, and to deepen the understanding of Japanese development experiences. This General Information is about the opportunity to study respective academic fields in the Master of Public Health in Global Health Course at the Tokyo medical and Dental University, and deepen the understanding of Japanese development experiences.

Through this program, participants will gain a deep understanding of areas pertaining to the achievement of UHC in Japan, so that they may use this knowledge to contribute to the development of home countries. Also, it is expected that participants will play a significant role as a leader in the respective fields after their return, fostering a long-lasting bilateral relationship between each respective country and Japan.

2. Objectives

- (1) To develop human resources in the field related to achieving Universal Health Coverage
- (2) To strengthen a human network between partner countries and Japan in the field related to attaining UHC.
