

Important Notice

for the candidates of Core Human Resource Development for JICA's Road Asset Management (JFY2024-2026)

We would like to express our sincere appreciation for your interest in "Core Human Resource Development for JICA's Road Asset Management (JFY2024-2026)". Before you submit your applications, there are important issues that we would like to draw your attention to.

1. Accompanying Family

Family accompany fee is NOT included in this program. Most JICA participants study abroad by themselves. Their family do not accompany. Please understand this and think carefully if you are still interested in studying aboard in Japan.

2. Family Understanding

Many participants find out their family or relative situations do not allow them to study abroad for two or three years due to various situations. Please understand this and think carefully if your family members are OK for your study in Japan.

3. Expected Amount of Allowance

Please check the Handbook of JICA's long-term training participants. Participants will receive the amount based on the handbook during their stay in Japan. The amount will change for next Japanese fiscal year (JPY), but most likely stay within the similar range. Please understand this and think carefully if you are OK with the amount.

4. Research Theme

Although universities will match candidates in line with the proposed research theme, professors may ask candidates to revise/elaborate research theme. From that viewpoint, it is appreciated for candidates to have flexibility on their research themes to some degree.

Some participants suddenly decline after receiving university admission due to the above issues, which surprised many JICA officials and Japanese professors involved. It is highly appreciated if you apply for this program after understanding these issues and backgrounds.

I read the above carefully and understand its contents.
